

Southern California Chinese Lawyers Association

Presents...

# Phoenix Rising

## NOT AN ORDINARY WORKSHOP!

***Phoenix Rising* is a full-day workshop that will teach you the essential skills you need to maximize your legal profile. Learn how to elevate your image by achieving all the intangibles that you know you need, you wish you had and you want to develop. Gain insight into overcoming internal and external obstacles faced by all counselors and advocates. Topics will include:**

- **Rainmaking and Making Connections**
- **Confrontation and Assertiveness Training**
- **Overcoming the Fear of Public Speaking**
- **Balancing Career and Life Goals**
- **Elevating Your Presence in the Courtroom and Boardroom**
- **Using the Cultural Gifts You Have and Dispelling the Myths**
- **Breaking the "Bamboo Ceiling"**

**The program will include presentations and workshops from professional speakers, shared insight from successful attorneys, as well as breakfast and lunch. This workshop will provide practical tips and strategies on achieving success at work, while still having time for family, social life, and community service. Critical issues will be discussed not typically addressed in other forums, such as law firm politics, mentorship, ascertaining power and skills, and the importance of developing your own style. While originally designed to meet the unique challenges facing Asian women attorneys, this workshop is open and beneficial to everyone, male and female, who want to take their legal image and presence to the next level.**
